

MEDIA RELEASE

CONSTRUCTION NOTICE ENTRADA DE SANTA BARBARA ROADWORK, SIDEWALK AND UTILITY UPGRADES

SANTA BARBARA, CA – March 7, 2013

The Entrada de Santa Barbara Project street and sidewalk improvements, located on the west side of State Street and on West Mason Street, are scheduled to begin the week of March 11, 2013. The proposed work includes widening the State Street sidewalks, installing new landscaping and street trees, utilities, decorative street lights and roadway improvements. The project is located on State Street between Cabrillo Boulevard and the Union Pacific Railroad, and on West Mason Street from Kimberly Avenue to State Street (see map).

The Project is being constructed by Entrada de Santa Barbara with the City of Santa Barbara, Public Works Department managing and inspecting the construction.

Construction is scheduled to begin the week of March 11, 2013, and be completed in July, 2013. During construction, State Street will remain open to traffic with a minimum of one lane in each direction. However, to avoid delays, motorists are encouraged to use alternative routes. Pedestrian access will be maintained on the east side of State Street throughout construction and local businesses will remain open and accessible. Mason Street between State Street and Kimberly Avenue will be closed.
